

## WHAT'S FABLAB MACHINES DISCOVERY?

Our app uses augmented reality and works on any mobile device. It helps visitors and members of the FabLab Space learn about machines by scanning them with their camera.

## FEATURES

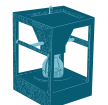

Unique AR Experience

Image Recognition

Color-coded Popups

3D Machine Simulation

Localization (French & English)

Runs on both iOS & Android

## SCAN. LEARN. CREATE.

Essential information provided in color-coded categories

General Information

Safety Risks

Use Instructions

Technical Information

Play Simulation
